To Parents/Guardians

Tsu City Board of Education

Medical Expenses Payment for Injuries or Illnesses at School or  
Kindergarten (Requests)

Starting September 1, medical expenses for children up to 15 years old will be free of charge in Tsu City. However, if the child gets injured or sick at school or kindergarten and needs to go to the hospital, the parent/guardian will pay the medical expenses on that moment.

The medical expenses paid by the parent/guardian will later be reimbursed by Japan Sports Council with an additional 10% payment.

Details

★ When receiving medical treatment for injuries or illnesses that occurred at school or kindergarten.

- ① Please inform the staff at the hospital that the injury(illness) happened in the school or kindergarten.
- ② Do not use the Children Medical Expenses Subsidy Certificate; instead, pay the medical fees at the hospital.
- ③ Have the hospital staff fill out the Japan Sports Council form and submit it to the school or kindergarten.

※ Starting in September, there will be no income limit for the Child Medical Expense Subsidy. Those who do not have the subsidy certificate will need to apply. For inquiries, please contact the Tsu City Health Insurance and Medical Assistance Division.
