

Notice About Dental Examination

Date and Time: Thursday, April 25th(Thu) 9:00~

Place : Health Room

※Let's get our teeth brushed !

The following points will be seen during the dental examination !

● **Maybe you don't have cavities??**

There are cavities in which the tooth is dissolved superficially, but there are cavities in which the tooth is dissolved until close to the root, making it a serious case.

● **You do not have periodontitis**

Periodontitis is an inflammation of the gums. If left untreated, it can even affect the alveolar bone, melting it.

● **Is there nothing that worries you about the joint Temporomandibular ?**

● **Aren't there any precautions you need to take regarding the alignment of your teeth or your bite?**

● **Are you able to remove dirt (dental plaque) from your teeth just by brushing your teeth?**

Dental plaque is the accumulation of bacteria that are the reason for the formation of cavities and periodontitis problems. Plaque can be removed by brushing your teeth well. While dental calculus or tartar which is the result of plaque mineralization, it cannot be removed by brushing your teeth alone. Therefore, you must go to the dentist and have it cleaned.

To 6th graders parents

As mentioned in the information 「すこやか」, based on the results of the dental exam, we will choose a school representative from among the 6th grade students. The chosen student will be accompanied by the Yogo teacher to the dentist Omura to remove the shape of the tooth. If there is any inconvenience, the chosen one must inform the school in advance.
