

Notice about clinical examination

Day and Time: Thursday, May 9th (Thu) from 9:00~

Place: Healthroom

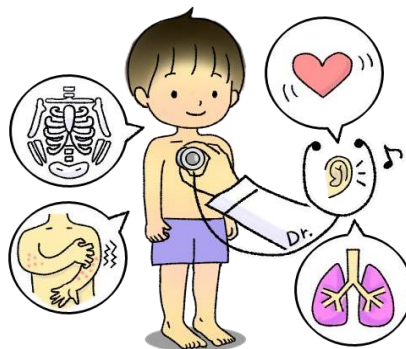

Clothing: P. E. uniform (t-shirt and shorts)

In the clinical examination the following will be examined !

Whether your chest and back bones are in good shape.

If you are well nourished and your skin condition is good.

If you don't have anemia.

If not, there is something strange in the heart, lungs or bronchi.

★To do a detailed examination

In the clinical examination, the heartbeat, breathing, skin condition is checked, and whether there is a problem with the spinal column or chest, so the children lift the t-shirt up to the neck to be examined. Students from 4th to 6th grade can wear a bra or top under the t-shirt. the doctor may move the item a little when being examined. (If you wear a sleeveless t-shirt underneath, it will be lifted along with the t-shirt during the examination) Furthermore, for the doctor to carry out a specific examination, depending on the condition of the skin, she may touch some parts such as the back of the chest and hips to check the skin. I count on your understanding.

★For privacy protection

1. Students will be separated at the time of the exam.
2. At the time of the exam, students will be examined individually, protected by a screen.
3. When taking the exam, students will lift their t-shirts up to their necks.
4. Registration and assistance will be carried out by the yogo teacher.

★Due to the fact that the tuberculosis exam is carried out together with the preliminary exam, the 6th grade study trip.

And due to the fact that the health questionnaire, tuberculosis examination questionnaire and the preliminary examination questionnaire to the study trip were presented in April, in case there are any changes after they have delivered the questionnaires or if you have anything you want to consult with the school doctor, please tell the teacher until the day of the clinical examination.

※If there are any precautions that should be taken during the exam or something that the doctor should be aware of, please let us know in advance.
