

スクールカウンセラーだより

英語版 Kumozu Elementary School 2024 April

Psicóloga Escolar Mayuko Ooishi

Congratulations on your school entrance and the new school grade.

I'm school psychologist Mayuko Ooishi, I've been working at Kumozu Primary School for 3 years. I'm counting on you.

A new school year has started. How have you been doing? At this time, various feelings such as expectation and insecurity regarding the new school life, tend to move actively. And there may be doubts about colleagues, teachers, family, of studies ... That you would like someone to listen to. In the school psychological consultation, you will be able to talk calmly about it during the scheduled time and, together with the psychologist, think about a solution. Through talking to people, the feelings and situation can be more organized and clear. They can talk about any subject. And the matter will be kept confidential. Feel free to talk to me.

【To parents】

Consultations are open to parents as well. Don't you have any concerns about your child, yourself or your family? Let's think together so that your child has a full school life.

Scheduling Method

Speak with Yougo teacher Tsujioka.
