School Goal ~Formation of students who develop together but have their own shine~

Many smiles through meetings ! May we learn a lot.

In May we had many meetings where through new experiences we were able to deepen our learning and enjoy relationships with people. We studied by doing new experiences such as club activities, exchanges between grades and mixed grade group activities.

And we also had the collaboration of companies from the Kumozu district and people from the community in the study related to children's development [I like myself. I like my colleagues. And I love Kumozu!!]. Thank you very much for the opportunity to both the children and the adults can feel happy.

We are posting on HP from KUMOZU SHOUGAKKOU→

Mist group meeting

All Grades excursion at NISHIYAMA Public Square in KARASU

【Acknowledgment】

On the tour, we received a donation of PET tea bottles from a person in the community. This person said: - It's for the benefit of children and teachers. Thank you very much for your consideration.

The tea served to refresh the throats of the children who played hard in the afternoon. Thank you very much

Presence of district social workers at the school entry celebration

1st Meeting of the Children's Parliament

Students from all over the school clearing weeds

New sports club

KUMOZU WAKUWAKU Club

Visit to the Ship factory and farewell to the departing ship

Library volunteers reading to the lower grades

Library volunteers reading to all students at school

Planting the sweet potato vine.

Traffic safety class

(PTA security and publishing department)

Tax class

Mixed group cleaning

1st School Administration Council May 17)

Lately, due to sudden changes within society, we have had many complex and diverse problems within the community and within the school. And within these circumstances, the school and the local community must share the objective of the curriculum guidelines, which is to create a better society through better school education and work together to promote the construction of a good school and a good community and through mutual collaboration support the development of children. (Ministry of Education 「これからの学校と地域」より →)

Tsu City has established a "School Management Council" in all primary and secondary schools and appoints local people to participate in school management together with teachers and staff. At Kumozu Elementary School, we once again had a volunteer probation officer, the neighborhood association president, and PTA representatives serving on the committee. Our goal is to share school education goals and deepen discussions on topics such as engaging with children from every perspective, raising children in the community, and collaboration between schools and the community. We will also act as a bridge between various organizations in the Kumozu area and this year we intend to do various activities in collaboration with the community. Thank you very much.

Thank you very much

The firm Yoshimura Kougyou, which has facilities in the Nagatsune region, made a large donation towards the education of the 3 schools in the Nankoh region (Kumozu Primary School, Takachaya Primary School and Nankoh Junior High School). Our deepest thanks to Mr. Yoshimura, with the donation we were able to buy 1 projector, 1 table and chair set. The chair and table set was placed in the multipurpose hall at the entrance for group studies and group meeting activities and also for relaxation and better interaction between children.(parents and local residents can also use it).Sir, Yoshimura, thank you very much.
