**School Goal** ~Formation of students who develop together but have their own shine~

The 44 days of summer vacation are over and the children's voices have returned to school strong and healthy. What kind of vacation did the children have? The experiences of the 44 days certainly made the students grow a lot.

Well, this is how the 2nd quarter of achievements begins. And all of us teachers will support the healthy growth of the children with teamwork and dynamic strength. We will be counting on the continuous support and collaboration of parents, guardians and community members.

Kumozu School HP

## The renovation that was done during the summer holidays

① The rest room in front of the library has become European in style.

② The classroom lights were replaced with LED lights

Among other works: ③ The parking lot of the inner courtyard was lined with gravel.

④ Fireproof shutters were repaired. ⑤ Blackout curtains were installed in the classrooms.

By consulting with the PTA and the District Autonomous Association, as well as other associations, we have gradually renovated the school environment. Thank you very much.

In addition, even during the summer vacation we did weeding almost every day, but some parents and relatives volunteered to help, since the children will be using the sports field in the 2nd school term. Thank you very much for helping us during long hours in a very hot environment.

## Notice and Request

5th grade teacher Jun Ichi Sakakura will be on sick leave (approximately from September 1st to December 31st). During his absence, the substitute teacher for 5th grade A will be Tomohiro Nakamura. We hope for your understanding.
